

Set of finishing items

Set of items not included in the tank supply that can be mounted on all of the MASTER DHW production and storage tank installations.

- External lining kit: is composed of Silver-grey padded external lining.
- Cover and trimmings kit: is composed of top cover and inspection port cover, both in black, and a set of trimmings for the tank connections.

On request special "weather-resistant" or "fire-resistant" sets are also available.
